

# Grant's Morella Cherry Brandy

## Tasting Notes

### Grant's Morella

---

Nose: Fresh cherry juice initially, then more floral and leafy notes - sweetpea, blackcurrant leaf, and faint hints of orange pith. The cherry character slowly shifts to glace, then maraschino & marzipan aromas.

---

Palate: Silky, light on the tongue, and again fresh cherries are foremost, before the more maraschino notes emerge. Very ripe and authentic fruit character with the sweetness an afterthought.

---

Finish: Medium-length and gently sweetening.

---

Comment: Another extremely moreish liqueur, very capable of being drunk on its own due to a lack of the excessive cloying sweetness some other cherry brandies suffer from.

---
